OBJECTIVE

Aspiring AI and Web Development student with hands-on experience in Machine Learning, Generative AI, and front-end application development. Passionate about building practical, user-focused solutions through real-world projects, internships, and continuous learning.

EDUCATION

B.Tech in Computer Science Engineering (Artificial Intelligence)

Pragati Engineering College (2024–2028)
CGPA: 7.1/10

TECHNICAL SKILLS

Languages: Python, C, Java

Web Technologies: HTML, CSS, JavaScript, Bootstrap

Core Skills: Data Structures, Problem Solving

AI/ML: Machine Learning, Generative AI, Deep Learning, Prompt Engineering, NLP

Tools: Git, GitHub, VS Code

SOFT SKILLS

Communication • Teamwork • Leadership

INTERSHIPS

YUVA INTERNSHIP

Machine Learning Engineer Internship (6 Weeks)
YuvaIntern

GEN AI VIRTUAL INTERNSHIP (10 Weeks)

AICTE, EduSkills, AWS Academy (Jan–Mar 2026)

AI-ML VIRTUAL INTERNSHIP (10 Weeks)

AICTE, EduSkills, Google for Developers (Oct–Dec 2025)

PROJECTS

Spam Email Detector

Developed a spam email classification web application using Natural Language Processing concepts to identify spam and safe messages efficiently. Designed the interface for quick user interaction and structured the project to demonstrate practical application of text-based filtering and classification workflows.

<https://akshayabeera7-del.github.io/spam-email-detector/>

Bootstrap UI Project

Built a responsive front-end web application using Bootstrap, HTML, CSS, and JavaScript with a clean layout and reusable UI components. Focused on mobile-friendly design, structured sections, and modern interface styling to demonstrate strong front-end development fundamentals.

<https://akshayabeera7-del.github.io/bootstrap-ui-project/>

Task Management Web App

Created a task management web application that helps users organize, track, and manage daily tasks through an interactive and user-friendly interface. Implemented structured task handling features and a responsive design approach to improve usability and productivity-focused workflow management.

<https://akshayabeera7-del.github.io/task-management-web-app/>

Ecommerce Shopping Web App

Developed an e-commerce shopping web application with product browsing, category-based layout, and an engaging shopping interface. Emphasized responsive design, organized product presentation, and smooth user experience to simulate a modern online shopping platform.
